President Simmons’ Plan for Academic Enrichment, supported by the Campaign for Academic Enrichment, positively transformed many aspects of our historic University. 2012 provided numerous opportunities to reflect upon and celebrate these accomplishments.

As a new academic year begins and we look forward to Brown’s 250th in 2014, it will be important for women to play a leadership role in Brown’s continued success. Our diligence ensures a bright future for our beloved University and for generations of future students who will pass through Van Wickle Gates.

$1 Million Women’s Leadership Council GOLD Challenge: EARNED!

To celebrate and commemorate 120 years of women at Brown, the Women’s Leadership Council launched a $1 million challenge to encourage Graduates of the Last Decade (GOLD) to take part in the tradition of giving back to the University through the Brown Annual Fund. This 120-day, dollar-matching challenge was only the third million dollar GOLD Challenge and the first funded entirely by women.

More than 2,000 recent graduates rallied in response, earning $1,041,880 for the University!

WLC member and Brown Annual Fund Co-chair Andrea Baum ’83, P’15 praised this accomplishment by saying that the challenge is “one reason the annual fund surpassed its goal.” Baum continued to say how “students are more aware than those in earlier decades that money pays for scholarships that benefited them and their classmates, this is what inspires them to give.”

WLC member Shelley Fidler ’68, P’09 stated how the challenge “showed philanthropy is not just for rich people, but comes in all shapes and sizes. Young people are developing lifetime habits of giving.”

**Women’s Launch Pad Grows and Glows**

In its sixth year, the Women’s Launch Pad (WLP) mentoring program has grown from 37 mentoring pairs to 123 pairs—an incredible increase of 232%. In addition, the program recruited 60+ new mentors for academic year 2012 to address the growing demand from senior class women. Best of all, 70% of the mentors (alumnae) and 65% of the mentees (senior class women) rated their overall WLP experience as “above average to exceptional.” The WLP will support 125 pairs this year. Visit the WLP website to learn more about the mentoring experience.

On May 3, 2012 at the WLP year-end celebration – an event open to the University community – mentees and their mentors gathered to hear a panel of former WLP mentees discuss their experiences (good and bad) after graduating, including navigating job searches and transitions, using what they learned at Brown in professional environments, working and traveling abroad, and living in the “Big City.”
